Professional Summary

Results-driven Senior Full-Stack Software Engineer with over 6 years of progressive experience in the full software development lifecycle. Experienced in building secure, scalable multi-tenant web platforms with real-time features, Role-Based Access Control (RBAC), and Dockerized architecture. Strong technical skills across Angular, Laravel, and Django, combined with solid requirements analysis and stakeholder communication. Seeking Senior Full-Stack or Technical Lead roles in Germany.

Technical Skills

Frontend: Angular (TypeScript), React.js, Tailwind CSS, HTML, CSS, JavaScript, Bootstrap

Backend: Laravel (PHP), Django (Python) + Django REST Framework

Databases: PostgreSQL

DevOps & Architecture: Docker, Microservices, VPS Management (Hostinger), CI/CD, RESTful APIs, Real-time Systems

Other: Multi-tenancy & RBAC, Requirements Analysis, Team Collaboration

Professional Experience

Senior Full-Stack Web Developer

King Jones International Trading Company Limited – IT Department

Vietnam | 2022 – Present

- **Designed and developed a multi-tenant web platform supporting service-based business operations, including real-time booking, live chat, and role-based dashboards for different user types.**
- **Built the solution using Angular, Laravel/PHP, PostgreSQL, and Docker; managed deployment and server maintenance on Hostinger VPS.**
- **Implemented granular Role-Based Access Control (RBAC) and data isolation to ensure secure multi-tenant access and system integrity.**

- Worked closely with stakeholders to gather requirements, translate business needs into technical solutions, and optimize system performance and concurrency handling.

Frontend Web Developer

King Jones International Trading Company Limited – IT Department

Vietnam | 2020 – 2022

- Developed responsive user interfaces using Angular, React.js, HTML, CSS, JavaScript, and Bootstrap.
- Integrated frontend applications with backend APIs to deliver reliable and seamless user experiences.

Customer Relations Manager (Technical Bridge)

King Jones International Trading Company Limited

Vietnam | 2019 – 2020

- Gathered and translated client and internal business requirements into clear technical specifications for development projects.
- Built practical domain understanding of service and trading business workflows that informed later system design decisions.

Education

Masters in Software Engineering with specialization in Data Analytics (FPT University, 2019) – Thesis on Customer Segmentation using K-Means

Bachelor of Science (Education/Mathematics) — University of Nigeria (2013)

Certifications

- The Complete 2021 Web Development Bootcamp – Udemy (Dr. Angela Yu), August 2021
- English Proficiency – CEFR C1 (Advanced) – British Council, April 2025

Languages

English: C1 (Advanced / Professional working proficiency)

German: A1 (Beginner / Currently Learning)
